

Quadro

Design & production
made in France

Quadro has a four-curved openwork design that diffuses light in a refined way and plays on contrasts day and night.

Through the
cut-out,
light reinvents
itself.

Creative and
crossing play of
light

Ambient lighting + Deco

Quadro has an original urban deco style.

The decorative motif is made up of a cut-out that can be rounded in the shape of drops or squares.

The interior lighting is nuanced according to a palette of RGBW colors that enhances the pattern of the column.

The ambient lighting at the head is available in 2 types of functional distributions: symmetrical or asymmetrical.

Lighting of your choice

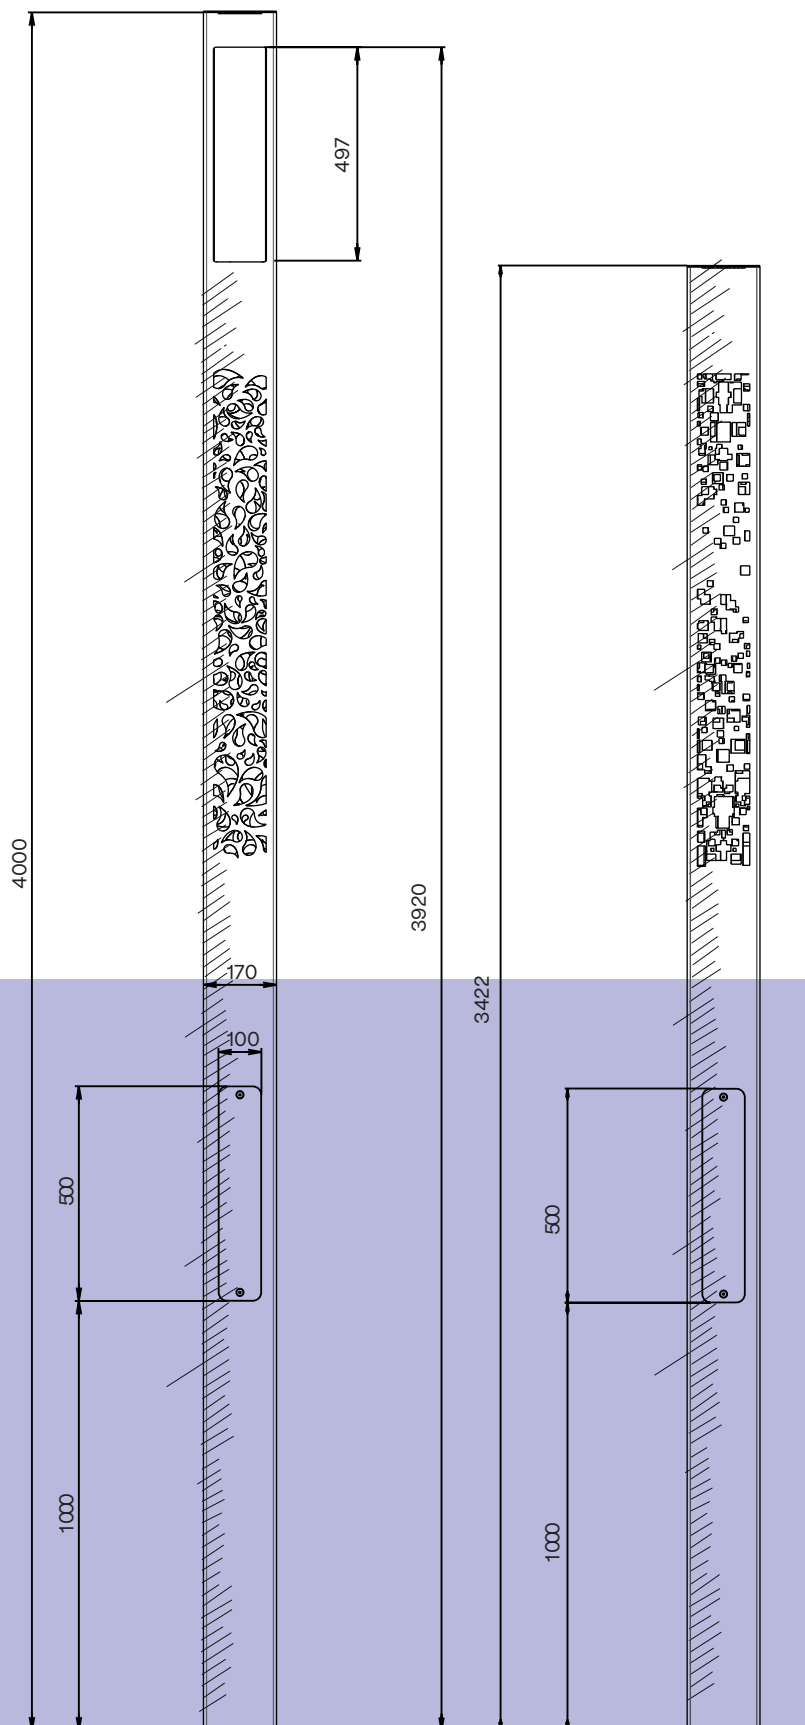

- Ambient
- Ambient + Deco
- Deco

RGBW decorative lighting
can be personalized to create
unique light signatures that
match urban life.

Deco

Quadro

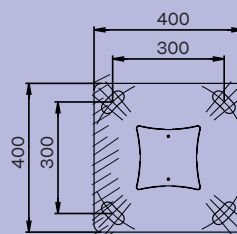

Quadro Ambient + Deco combines functional lighting at the top of the column with dynamic or fixed RGBW lighting, in the middle of the column.

The RGBW LED backlighting allows for a personalized play of light that highlights the cutout.
